

TETRA Technologies, Inc. Announces Update To Second Quarter 2020 Results

THE WOODLANDS, Texas, Aug. 7, 2020 [/PRNewswire/](#) -- On August 4, 2020, TETRA Technologies, Inc. ("TETRA" or the "Company") (NYSE:TTI), after TETRA had released earnings but before the Company had filed its Form 10-Q for the three and six months ended June 30, 2020, one of TETRA's offshore completion fluids customers announced it had filed for reorganization under Chapter 11 of the U.S. Bankruptcy Code (the "Customer Bankruptcy"). As a result of the Customer Bankruptcy, TETRA recorded bad debt expense of approximately \$2.8 million in the three and six months ended June 30, 2020 to reflect TETRA's assessment of the collectability of the outstanding receivable from that customer. TETRA recorded this charge in the general and administrative expense line of the Consolidated Statements of Operations. Due to the timing of the Customer Bankruptcy announcement, our August 4th earnings release did not take into account this significant unusual bad debt expense. Please note such bad debt expense does not impact the Company's previously reported revenues, Adjusted EBITDA, Adjusted EBITDA margins, cash from operations or adjusted free cash flow.

The attached schedules have been updated from what was previously released to reflect this bad debt reserve.

This press release includes the following financial measures that are not presented in accordance with generally accepted accounting principles in the United States ("GAAP"): Adjusted earnings per share attributable to TETRA stockholders, Adjusted EBITDA, and Adjusted EBITDA Margin (Adjusted EBITDA as a percent of revenue) on consolidated and segment basis, Adjusted income (loss) before tax, TETRA-only adjusted free cash flow from continuing operations, and net debt. Please see Schedules E-K for reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measures.

Schedule E: Statement Regarding Use of Non-GAAP Financial Measures

In addition to financial results determined in accordance with GAAP, this press release may include the following non-GAAP financial measures for the Company: net debt; adjusted consolidated and segment income (loss) before taxes and special charges; adjusted diluted earnings (loss) per share before discontinued operations; consolidated and segment adjusted EBITDA; net income (loss) before taxes, Adjusted income (loss) before tax, Adjusted income (loss) before tax as a % of revenue, TETRA only adjusted free cash flow and TETRA only free cash flow from continuing operations; and segment adjusted EBITDA as a percent of revenue ("Adjusted EBITDA margin"). The following schedules provide reconciliations of these non-GAAP financial measures to their most directly comparable GAAP measures. The non-GAAP financial measures should be considered in addition to, not as a substitute for, financial measures prepared in accordance with GAAP, as more fully discussed in the Company's financial statements and filings with the Securities and Exchange Commission.

Management believes that the exclusion of the special charges from the historical results of operations enables management to evaluate more effectively the Company's operations over the prior periods and to identify operating trends that could be obscured by the excluded items.

Adjusted income (loss) before taxes (and adjusted income (loss) before taxes as a percent of revenue) is defined as the Company's (or the Segment's) income (loss) before taxes excluding certain special or other charges (or credits). Adjusted income (loss) before taxes (and adjusted income (loss) before taxes as a percent of revenue) is used by management as a supplemental financial measure to assess financial performance, without regard to charges or credits that are considered by management to be outside of its normal operations.

Adjusted diluted earnings (loss) per share before discontinued operations is defined as the Company's diluted earnings (loss) per share excluding certain special or other charges (or credits). Adjusted diluted earnings (loss) per share is used by management as a supplemental financial measure to assess financial performance, without regard to charges or credits that are considered by management to be outside of its normal operations.

Adjusted EBITDA before discontinued operations (and Adjusted EBITDA before discontinued operations as a percent of revenue) is defined as earnings before interest, taxes, depreciation, amortization, impairments and certain non-cash charges and non-recurring adjustments. Adjusted EBITDA before discontinued operations (and Adjusted EBITDA margin) is used by management as a supplemental financial measure to assess the financial performance of the Company's assets, without regard to financing methods, capital structure or historical cost basis and to assess the Company's ability to incur and service debt and fund capital expenditures.

Adjusted income before tax is defined as earnings (loss) before interest, taxes, impairments and certain non-cash charges and non-recurring adjustments. Adjusted income before tax (and Adjusted income before tax as a percent of revenue or Adjusted income before tax margin which is Adjusted income before tax divided by revenue) is used by management as a supplemental financial measure to assess the financial performance of the Company's normalized profitability while excluding any unusual, non-recurring items and tax benefits or detriment.

TETRA only adjusted free cash flow is a non-GAAP measure that the Company defines as cash from TETRA's operations, less capital expenditures net of sales proceeds and cost of equipment sold and including cash distributions to TETRA from CSI Compressco LP. TETRA only adjusted free cash flow from continuing operations is defined as TETRA only adjusted free cash flow less discontinued operations EBITDA and discontinued operations capital expenditures. Management uses this supplemental financial measure to:

- assess the Company's ability to retire debt;
- evaluate the capacity of the Company to further invest and grow; and
- to measure the performance of the Company as compared to its peer group.

TETRA only adjusted free cash flow and TETRA only adjusted free cash flow from continuing operations do not necessarily imply residual cash flow available for discretionary expenditures, as they exclude cash requirements for debt service or other non-discretionary expenditures that are not deducted.

TETRA net debt is defined as the sum of the carrying value of long-term and short-term debt on its consolidated balance sheet, less cash, excluding restricted cash on the consolidated balance sheet and excluding the debt and cash of CSI Compressco LP. Management views TETRA net debt as a measure of TETRA's ability to reduce debt, add to cash balances, pay dividends, repurchase stock, and fund investing and financing activities.

Schedule H: Non-GAAP Reconciliation of TETRA Net Debt (Unaudited)

The cash and debt positions of TETRA and CSI Compressco LP as of June 30, 2020, are shown below. TETRA and CSI Compressco LP's debt agreements are distinct and separate with no cross-default provisions. Management believes that the most appropriate method to analyze the debt positions of each company is to view them separately, as noted below.

The following reconciliation of net debt is presented as a supplement to financial results prepared in accordance with GAAP. Amounts presented are net of deferred financing costs.

	June 30, 2020
